## EDUCATION

### POSTGRADUATE DEGREE

2024 - 2025

Front-end Engineering - FIAP.

### BACHELOR'S DEGREE

2018 - 2019

Systems Analysis and Development - Impacta College.

## PROFILE

I am a Developer with over 6 years of experience building responsive and accessible websites/softwares, ensuring clean code for SEO optimization and high performance.
I am detail-oriented, deadline-driven, and thrive in collaborative team environments. I am committed to continuous learning, always eager to acquire new skills and share knowledge.
I have advanced English and I am open to working in multicultural environments and adapting to new challenges.

## EXPERIENCES

### DEVELOPER MID LEVEL

StudioRX - Omnicom | 2025 - current

Working directly with the New York team, we developed HTML and Veeva emails with variables, ensuring accessibility and responsiveness across all email providers. We also created responsive landing pages and animated banners GWD using CSS transitions and keyframes.

### DEVELOPER HTML | UI UX

REF+ | 2022 - 2025

I am responsible for creating email marketing campaigns using Figma and HTML4, ensuring responsive designs compatible with all email providers. Additionally, I develop SVG, CSS, and JavaScript animations for media campaigns and promotional content.

### FRONT-END DEVELOPER

Fuerza Studio | 2021 - 2022

I have developed multiple complete WordPress themes, maintaining plugins and creating new blocks using Gutenberg/ACF. All projects are responsive, following SEO best practices and a11y (accessibility) standards.

### PHP WEB DEVELOPER

Live Incentive | 2019 - 2021

I contributed to the development of gamified portals for major clients such as Coral, Hydra, and Banco do Brasil. In these portals, I created and maintained weekly activations, ensuring that users had the best possible experience when accessing them.
